## Action 8.2 - Awareness raising actions

DRAAC has promoted a Marine litter exhibition/artexhibition in a shopping center, in partnership with a local artist, and intended to show some of the marine litter that is found on the beaches of the Autonomous Region of Madeira, and the results of all the work that has been carried out by DRAAC to increase scientific knowledge, remove environmental liabilities and raise awareness about this problematic. This exhibition focused on 3 main axis: monitoring, cleaning of remote accumulation sites and awareness raising.

The exhibition had around 100,000 visitors.
